Continuation of 11. does NOT place the application in condition for allowance because: The applicant's remarks filed 9/28/06 have been considered but are not persuasive. In regard to the argument that the action dated 7/28/06 was improperly made final, the examiner respectfully disagrees. Section 706.07(a) of the MPEP states that "Under present practice, second or any subsequent actions on the merits shall be final, except where the examiner introduces a new ground of rejection that is neither necessitated by applicant's amendment of the claims nor based on information submitted in an information disclosure statement filed during the period set forth in 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p)." The newly cited reference Takata (US 2004/0183655) was introduced to overcome the amendments to the claims filed by the applicant on 5/15/06 therefore the finality of the action dated 7/28/06 is proper. In regard to the argument that the proposed modification of Geil (US 6181024) is improper because Geil fails to teach a door handle that moves in one direction for both unlocking and opening the door, the examiner respectfully disagrees. Geil is not the reference being modified. Takata is the reference being modified in the final action dated 7/28/06. Takata teaches a handle that moves in one direction for both unlocking and opening the door (paragraph [0015]) and is modified to include the vehicle-based transceiver of Geil, not the handle of Geil. After consideration of the applicant's remarks, the final office action dated 7/28/06 is proper.
